From business requirements diagnosis and strategy definition to solution implementation and capability deployment, the Company's projects are staffed by a pool of talents specializing in various IT practices and technologies using the Microsoft Solutions Framework methodology.

dB Wizards business solutions include project management, solution architecture, application development, advanced network infrastructure design and implementation, portal and collaboration, business intelligence and Microsoft Dynamics NAV and CRM deployment.

dB Wizards also licenses and implements two IP products as a result of numerous experiences. HR*Wizard, an end-to-end, web-based HR information system that provides tools to efficiently handle the full talent management lifecycle of an employee. E*Wizard, a complete and integrated school management system designed to better facilitate student enrollment cycle and related school administration processes.

dB Wizards offers world-class learning solutions delivered by highly competent and certified trainers. Learning Solutions cover training needs analysis, instructor-led Official Microsoft Learning Products and customized courseware development and delivery. Basic to advanced courseware are available for Microsoft development tools and platform such as Visual Studio .NET and programming languages C# and VB.Net, Microsoft Core Infrastructure Platform such as Microsoft Windows, ISA Server, SQL Server and Microsoft Office and SharePoint Portal Server.

Our goal is to become your trusted advisor.

OUR PRODUCTS

dB Wizards offers various products designed to simplify your internal processes, boost your productivity, reduce your operating costs and grow with the increasing demands of your business.

HR*Wizard is an end to end, human resource information system (HRIS) which provides tools to efficiently handle the full talent management lifecycle of an employee.

E*Wizard is a revolutionary, Microsoft based school management system that helps shorten enrollment cycle, enable easy access to student information and maintain tight security.

Warehouse*Wizard

Warehouse*Wizard is a Warehouse Management System (WMS) that helps improve operations and reduce overall cost by integrating processes from customer to warehouse to financial and to supplier, allowing the flexibility required to meet business demands.

Patient Management Portal is a solution for clinics that allows the electronic management of patient's records, management of laboratory and laboratory inventory and monitoring of sales records. Access to and retrieval of patient information is made quicker and more effective and allows doctors to spend more time interacting with patients and less time in doing paperwork.

Company Portal can give your workforce dynamic, one-stop access to the work and life-related content and applications they need to be more productive. Stronger communication with your employee enables more efficient collaboration and productivity, along with employee satisfaction because they can easily find what they need.

OUR SERVICES

dB Wizards offers an array of dynamic IT solutions and consulting services which will enable your organization to maximize value from your IT investments and achieve execution excellence to help drive performance in your business. The company provides business solutions and services in the following areas:
